

March 16, 1990 Friday

Dear Vickie and Jimmy:

The weather is quite cloudy this afternoon so I don't think I will work on the blackberry bushes right now, and besides I want to write to you before you leave for Paris. This morning at eight o'clock I went for a nice walk down to the school and although it was chilly out, I really enjoyed it, and I hope to start out again every morning, as I haven't been doing it, but I like nice weather when I go on walks. It should be nice spring weather very soon.

Diane keeps very busy and won the outstanding award for her accomplishments in leadership, and she was given a beautiful trophy. She keeps busy enough without seeing boys, and Mary doesn't ask her about the one Diane had seen a couple of times.

Mary has started her Myers Briggs course, which she does at home, and her exam will be given in Seattle in about two weeks. She just loves it and is very excited about it.

I am sure you are both enjoying your classes, I remember when Gail took music appreciation in college. She said that it was hard. I gave Stella my typewriter, but she hasn't been able to take it out of the case as she is very sick, and they had to cancel their trip to Reno. She has the terrible pain back in her face, and she is also very dizzy and nauseated. She has to spend most of the time in bed, and she can hardly talk because of the pain. Uncle Harold took her to the doctor yesterday and her head was x-rayed, but nothing bad was found there. There doesn't seem to be anything they can do for her. It has been about a year since she had the operation on her face, and she was getting along just fine. Now it is starting all over again. Jeannie will be leaving for Arkansas tomorrow, and she will be there for five days. Ruthie is getting along fine, and has radiation treatment every day. She came over yesterday, and she looks great and is cheerful and happy.

Love,
Mom
CH

Vickie, we looked thru all of the Muses, but we didn't find the missing G. and S. sheet. It must have been last years ago.
